

'POLICE SOUNDS'
from This Marauder's Midnight
lyrics by Gabriel Rios

*

Billie was a party girl
licking that window pane
And hooking up naked eye
time and time again
I said Billie you're a lucky one
just about two steps going wrong
But Billie she ain't having that
That ain't why she came

Don't you bring your love to town
thought I'd let you know
You been waving that heart around
A heart is a loaded gun
And police sound
police sound,
police sound,
I hear police sound
police sound,
police sound

She said I got a lot to live
I got a lot to live
Don't wanna go get better
You said what you wanted
Oh higher one
Oh higher one
Billie loves weekends
only one thing on her mind
her 26 been looking like 41
Always in a rush
make your fairy dust run to the car
cuz we ain't going anywhere

Don't you bring your love to town
thought I'd let you know
You been waving that heart around
A heart is a loaded gun
And police sound
police sound,
police sound,
I hear police sound
police sound
police sound

She goes on and on
and on and on and on
and on and on
She goes on and on
and on and on and on
and on and on
She goes on
